Upliftment and Education – This is a really great opportunity. There is something great about a group of like-minded individuals meeting with similar goals and achieving at least a better feeling from the day with the potential for something momentous coming out of it at the same time

ADD your name to the Like-Minded individuals Service Directory – as a service provider or potential mentor – we will be developing a 'LDS persons service directory' – say you want an LDS accountant or financial adviser, you would be able to draw on the list to call upon one for services from someone with potentially the same ideals you have

Business/Career Information Stands – Gain information firsthand with a variety of career and business disciplines on hand at to speak with e.g. Accounting, Entrepreneurship, Finance, Law (JRCLS), HR to name just a few
